

## Collain Enterprise Resource Planning and Accounting

Choose Smart Solutions from Collain

### Smart healthcare organizations need smart business software to match. Get and maintain financial control of your operations with Collain ERP.

The Collain Enterprise Resource Planning and Accounting suite enables healthcare providers to integrate and automate healthcare accounting practices to better manage organizational resources.

From professional staff management to the supply chain, Collain ERP supports quality and cost-effective client care by helping ensure the right people and the right tools are in the right place at the right time.

Are you ready to improve business operations? Could you benefit from enhanced resource availability and communications? How about automating invoicing, payments and payroll? The time is now. The solution is Collain ERP.

### Collain Enterprise Resource Planning and Financial Accounting

#### Finance Management

Gain complete, accurate and easy automation and integration of mission-critical accounting and reporting activities, with features including a **General Ledger** to consolidate information and provide a holistic view, **Accounts Payable** for invoicing and payment, and **Asset Management** for purchasing and amortization.

#### Decision Support

Align **Budgeting** and forecasting with **Cost Accounting**, reporting and analysis, bringing data together in one location to increase decision-making confidence by linking budget tools directly to revenue and expenses with continuous access to historical transaction data and live monitoring of your **Key Performance Indicators**.

# Automate Long-Term and Post-Acute Healthcare Accounting

Choose Smart Solutions from Collain

## Integrating EHR with ERP enables healthcare providers to manage mission-critical resources, increase operational efficiencies and control costs.

From people to supplies, without the proper tools in place to manage resources, efficiency wanes and costs sky-rocket. Serving throughout the healthcare industry, Collain Healthcare provides the right tools to optimize performance, clinical outcomes and competitive advantage for Skilled Nursing, Senior Living, Home Health, Hospices, Private Duty and Virtual Care. Partner with the power of Collain.

### Collain Enterprise Resource Planning and Financial Accounting

#### Supply Chain Management

Take control of your supply chain and material management, end-to-end, including features for **Requisitions** and approvals workflow with seamless integration to **Accounts Payable** for invoice reconciliation, along with **e-Commerce** enablement, invoicing, payments and even capability for **Catalog Management**.

#### Human Capital Management

Simplify and streamline the human equation to achieve total control of workforce-related costs, from formula-driven **Payroll Management**, to a **Human Resources** component covering recruiting, applicant tracking, labor relations and position management, and on to **Time & Attendance** and an online **Employee Self-Service** Portal.

#### System Management

Free up your IT staff for other tasks with easy-to-use, non-technical system management tools, including **Server Update Wizard** to manage upgrades and updates, **Schema Location Editor** to run multiple businesses from a single server, **Data Manager** for optimal load management, and **IT Manager** to track and manage usage.

#### Collain Healthcare

Collain Healthcare helps providers succeed in today's complex healthcare environment. Using Collain state-of-the-art smart technology, providers achieve the operational and population health outcomes necessary to gain and keep a competitive advantage. Intuitive EHR, virtual care, interoperability and business intelligence solutions make it a reality.
